

Upcoming Talks

Eghbal Hosseini (postdoc, MIT)

Dec 02 (Monday) 11am @ Carney Inst. for Brain Science

Large language models implicitly learn to straighten neural sentence trajectories to construct a predictive representation of natural language

Ciana Deveau (phd student, Brown/NIH)

Jan 27 (Monday) 11am @ CIT 477 Lubrano

Recurrent cortical networks encode natural sensory statistics via sequence filtering

Ekdeep Lubana (postdoc, Harvard)

Feb 03 (Monday) 11am @ CIT 477 Lubrano

Dynamics of Concept Learning and Emergent Abilities in Neural Networks

Upcoming Talks

Eghbal Hosseini (postdoc, MIT)

Dec 02 (Monday) 11am

Carney Inst. for Brain Science, 164 Angell st. 4th floor

**Large language models implicitly learn to straighten
neural sentence trajectories to construct a predictive
representation of natural language**

Upcoming Talks

Ciana Deveau (phd student, Brown/NIH)

Jan 27 (Monday) 11am

CIT 477 Lubrano, 115 Waterman st

Recurrent cortical networks encode natural sensory statistics via sequence filtering

Upcoming Talks

Ekdeep Lubana (postdoc, Harvard)

Feb 03 (Monday) 11am

CIT 477 Lubrano, 115 Waterman st

**Dynamics of Concept Learning and
Emergent Abilities in Neural Networks**
